EXPERIENCE

Inspired Tech

Jul. 2024 – Mar. 2026

Software Developer

Prishtine

- Developed and maintained full-stack applications using Angular and .NET Core in a production environment
- Built reusable Angular components and managed async data flows using RxJS for dynamic and responsive UI
- Designed and integrated RESTful APIs, improving communication between frontend and backend layers
- Applied Repository Pattern and clean architecture principles to improve code maintainability
- Optimized database performance using Entity Framework, reducing query execution time and improving responsiveness
- Implemented lazy loading in Angular, reducing initial load time and improving user experience
- Developed authentication and authorization features, including JWT-based authentication and two-factor authentication (2FA) role-based and permission-based access
- Improved existing features, fixed bugs, and refactored code to increase system stability and maintainability
- Collaborated with the team on daily tasks, code reviews, and feature planning to ensure smooth delivery cycles

Sidsolutions.be

Sep. 2024 – Dec. 2024

Freelance Web Developer

- Designed and developed a responsive website using HTML, CSS, and Tailwind CSS for a client
- Implemented a clean UI, improving user experience and accessibility across devices
- Optimized layout and assets to improve loading performance and responsiveness

PROJECTS

Dating App [🔗](#)

- Developed a full-stack dating platform with authentication, real-time messaging, and user profile management
- Built using Angular 17, ASP.NET Core Web API, SignalR, and Cloudinary with features like matching and liking

Job Portal [🔗](#)

- Developed a job platform with applications, data management, and role-based access for job seekers and companies
- Built using HTML, CSS, JavaScript, PHP, and MySQL, ensuring responsive UI and efficient backend data handling

SKILLS

Front-end : HTML, CSS, Tailwind CSS, JavaScript, Angular, RxJS

Back-end : C#, ASP.NET Core Web API, PHP, Entity Framework, LINQ, Identity, SignalR

Database & Other : SQL, MySQL, Cloudinary, Lazy Loading, REST APIs, GitHub

EDUCATION

University "Hasan Prishtina"

2025 – Present

Master of Computer Software Engineering

Prishtine

University "Kadri Zeka"

2021 – 2024

Bachelor of Computer Science

Gjilan

FullStack Development Course

2021 – 2022

PerProgramera

FullStack Application Development Bootcamp (.NET & Angular)

2024 – 2025

Ingenio Stem School
